Samuel loves his community and it shows.

What We are All about

Star Choices has been around for over 35 years supporting individuals in the community. It has experienced many changes over the years by learning better, more effective ways to support people in the community. There are three teams of employees who work together to provide

different services for our Associates. One of those teams is a group of people called the New Horizons Employment Team. They focus on getting people jobs and keeping them employed in that job. They do this by job coaching the individual with everything necessary to make

sure that they are successful and competitive with their job responsibilities. They try their very best to match individual abilities to employers with specific job needs. We desire quality jobs for the people we support as well as quality workers for the employers to count on day in and day out.
